Government Degree College
Porumamilla, YSR KADAPA (Dist)

Accreditation Details of Previous NAAC

Year of 1 st Cycle	:	2015
Grade with CGPA	:	C (1.85)
Period	:	2010-2015
Year of 2 nd Cycle	:	2020

S. No.	NAAC Check List	YES	NO
1	Whether IIQA submitted in 2020		No
2	Whether the College constituted IQAC as per recent UGC guidelines	Yes	
3	Whether AQARs kept ready for last 5 years and in some cases for last 7 years		Submitted Four Years
4	Whether documentation is completed criterion wise	Under Process	
5	If completed whether digitally available		No
6	Whether all the department wise documentation done?	Under Process	
7	Whether faculty updated with their records pertaining to Criterion I , II and III ?	Under Process	
8	Whether the Teacher records are digitally available		No
9	Whether the database of students kept ready as per format given by NAAC	Under Process	

S. No.	NAAC Check List	YES	NO
10	Whether all the students are sensitised about Student Satisfaction Survey	Yes	
11	Whether the College website customised as per NAAC requirements		No
12	Whether the college website is dynamic		No
13	Whether the college has INFLIBNET		Renewed
14	Whether students and Faculty are using INFLIBNET actively		No
15	Whether INFLIBNET Log In Credentials are given to Staff and Students	Yes	
16	Whether Students and Faculty Using Digital Library? Whether Log Book is maintained		No
17	Whether the Principal & IQAC team visiting departments and updating records every week	Yes	
18	Whether the departments are ready with their presentations		No
19	Whether the SSR is ready by this month end? If not Give timelines		No (04 Months)
20	What is the earlier grade given by NAAC	C	

S. No.	NAAC Check List	YES	NO
21	What are Academic Advisors Suggestions/Observations/Remarks	1. To improve admissions 2. To introduce Certificate Courses 3. To introduce ADD ON Courses	
22	Whether the Suggestions addressed by Principal	Yes	
23	What are the Gaps identified by the College	1. Poor Admissions	
24	Whether there is Team work in College or Not	Yes	
25	Whether any support required from CCE	Yes	
26	Whether SWOC Analysis is done for Institution	Yes	
27	What are the GAPS identified for your college	1. Poor Admissions 2. Shortage of class rooms	
28	Whether TEAM work is there in your college	Yes	
29	Any other Issues to be addressed specifically by CCE		No

Govt. Degree College
PORUMAMILLA

Dear Sir/ Madam,

Sub: Silver Jubilee Govt. College (A), Kurnool - U.G. Degree Examinations - I/II/III years - I/III/IV or II/IV/VA semester end examinations - November / March, 2016 year - Question paper setting - Regarding.

I am happy to inform you that you are in the panel of question paper setters for UG Degree examinations for the academic year 2016-2017. You are requested to prepare one set of the following question paper/papers in English/Telugu Medium along with key/scheme of valuation and send on or before 26.9.2016 without fail to the undersigned.

I further request you that if you have any inconvenience, please return the question paper cover immediately to the above address.

Year	Course	Semester	Medium	Subject	Paper
I	B.Sc	I	Eng	chemistry	I
II	B.Sc	II	Eng	chemistry	II

I request you to

- Keep this offer strictly confidential.
- You should not communicate with the staff of Silver Jubilee College regarding question paper setting. For any clarification please contact the controller of exams by phone.
- The question paper should be set strictly in accordance with the syllabus and model question paper pattern provided. The paper setters are requested to give questions covering all chapters proportionally.
- Setting question paper is a great privilege and responsibility. We take extra care in choosing most capable persons like you for this job. We feel much obliged, if this responsibility is carried out with the seriousness it deserves. Your timely compliance would be highly appreciable.

Thanking you.

Yours faithfully,
Controller of Examinations

Abstract

The present investigation was carried out in Siddavatam forest range, YSR District, Andhra Pradesh, India to explore the use of medicinal plant species for various diseases and ailments. A total 34 traditional medicinal plants belonging to 32 genera and 25 families were identified. Altogether 34 types of ailments have been taken care of by using these plant species. Leaves were the most useful part as compared to other plant parts for the treatment of various ailments. With advent of human civilization various therapies have been developed. Ethnobotanical research is the need for the documentation of traditional knowledge pertaining to the medicinal plant utilization for the greater benefit of mankind. The study emphasizes the potentials of the ethnobotanical research and the need for the documentation of traditional knowledge.

Traditional medicinal plants, Siddavatam forest range, YSR District, Andhra Pradesh.

INTRODUCTION

Plants are the basis of life on earth and central to people livelihood. India is well known for significant geographical diversity which favoured to different habitats and vegetation types. For day to day life, plants have offered food, fodder, fuel wood, timber, dyes, latex, gums, fibres, shelter, fruits etc. Additionally, there are many plant species which have continuously been used by the natives for traditional medicines. Indian subcontinent is being inhabited by 53.8 million tribal people, representing one of the greatest euphoria of Ethnobotanical wealth (Sajem and Gosai, 2006). Since time immemorial tribal people use plants to cure various

ailments and diseases (Satyavathi *et al.*, 2017). Traditional knowledge is a record of human achievement in comprehending the complexities of life and survival of human society. The information about medicinal properties of plants came traditionally through generation by word of mouth. Folklore and traditional knowledge is in the process of extinction due to disruption of forest covers and uprooting of tribal population due to industrialization. Ethnomedicinal studies are often significant in revealing locally important plant species for discovering of crude drugs. Traditional healing systems play an important role in maintaining the physical and psychological wellbeing

Abstract

Cassia montana Heyne ex. Roth of *Caesalpinaceae* family is screened to evaluate different phytochemicals present in the leaf, extracted in different solvents at preliminary level so as to agree with its medicinal properties. Alkaloids, Tannins and Flavonoids are present in the selected plant species which are very important phytochemicals in the pharmaceutical industry.

Keywords

Cassia montana, phytochemicals, Alkaloids, Tannins and Flavonoids.

1. INTRODUCTION:

Plants are important companions of human life providing us food and shelter without which human life is an impossible task on the planet earth [1]. Apart from this, from the time immemorial, basing on the traditional knowledge, plants are playing a major role in the curing of different ailments of the mankind [2]. The secondary metabolic compounds accumulated in the plants are responsible for the medicinal significance of any plant and these compounds are known as Phytochemicals [3]. Phytochemical Screening explores the various phytochemicals of the plant, which establishes the

utilization of the plants in traditional medicine such as ethnomedicine by the ancient people from the time immemorial [4]. The vernacular names of *Cassia montana* Heyne ex. Roth. in Telugu are Konda thangedu, Paidi thangedu, Pagadi thangedu etc. Generally distributed along the roadside of Madanapalle, Kuppam regions of Chittoor Dist. The habitat is generally a shrub or a small tree. Oblong – elliptic, entire, obtuse leaflets are present. Flowers are generally arranged in axillary or terminal corymbose panicles and are in Yellow colour. Sepals and Petals are 5 in number and are ovate in shape. 10 stamens, 3 upper staminodes are present.
