BULLETIN: Swami Vivekananda said "True Education leads the unfoldment of latent potentialities in an individual." So the main objective of the institution is to transform the students as self-reliant. So a major emphasis is given in strengthening the remedial system for students who are from socially deprived backgrounds.

WORLD SPARROW DAY CELEBRATIONS

House sparrows are becoming extinct everywhere including INDIA. There is a need to spread awareness on their conservation. Department of Zoology constructed mud nets for the conservation of sparrow species long before. Now so many sparrows are living in these nests.

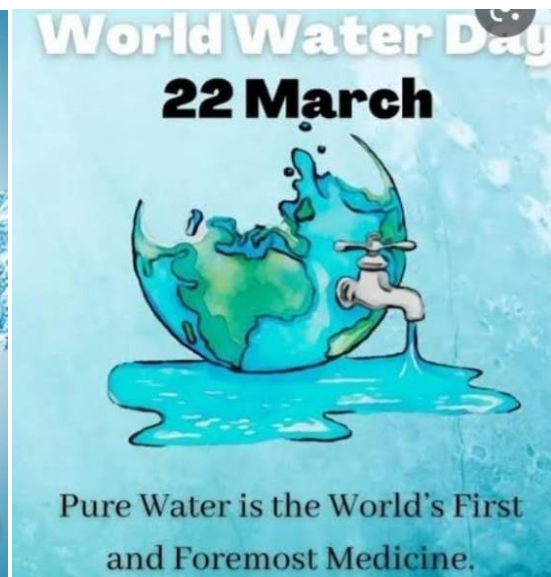

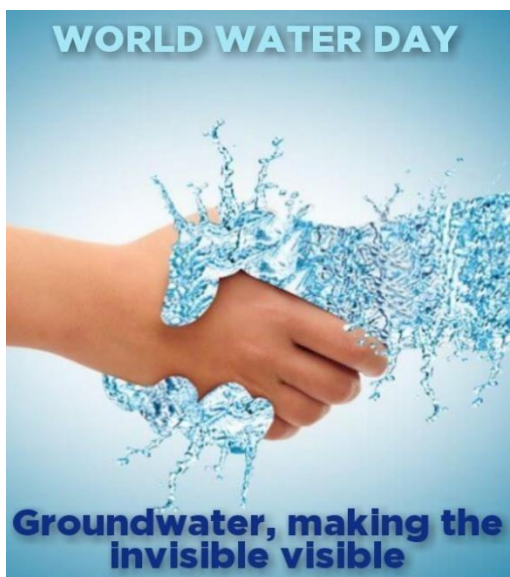

**WORLD WATER DAY CELEBRATIONS BY N.S.S.UNIT AND DEPT.
OF ZOOLOGY. ON 22/3/2022**

Officially in 1992 UNGA had a conference in RIO DE JANEIRO, BRAZIL, stating that every year March 22 will be marked as World Water Day starting from 1993. We all need water to survive. Our body uses water in all the cells, organs and tissues which helps to regulate the body temperature. Our ancestors declared that pure water is the world's first and foremost medicine.

“WHEN THE WELL IS DRY WE KNOW THE WORTH OF WATER.” –
BENJAMIN FRANKLIN.

World Water Day is celebrated to spread awareness about the importance of water and ways to conserve it. This year focuses on ground water which is an invisible resource with an impact visible everywhere. The NSS Unit and Zoology dept. cleaned and made use of groundwater pit present in the college.
