

Vision

To inculcate the value of science, concern for nature and ethical values among students through quality educational practices.

Mission

The mission is to transform the vision into action plans by defined endeavors as

- By providing comprehensive training in theoretical and practical Zoology.
- Sensitizing students towards animal welfare, conservation and protection of biodiversity by organizing awareness programs, rallies, Elocution etc. on important biology related days.
- Inspiring the students to achieve their goals in biological science & competitive exams through career guidance.
- Contributing for the holistic development of the women students with knowledge and expertise through Certificate courses, CSPs & Internships in order to make them as educators, scientists, administrators and entrepreneurs.
